

05- Double side labeling machine

Double-Side Labeling Machine (flat, round, square and special-shaped bottles) realizes accurate automatic labeling for various container surfaces. It solves labeling offset and unstable-speed problems, effectively reducing production costs for food, pharmaceutical, logistics and other industries.

Option

- Automation Integration
- Quality Control Systems
- Precision Drive Upgrades
- Special Material Handling
- Custom Tooling Solutions
- Data & Traceability

Feature

- Mitsubishi PLC control system
- Precise labeling position
- High stability & user-friendly operation
- Tool-free adjustments
- Quick product/label changeover
- No-product-no-labeling detection
- Automatic label correction
- Comprehensive documentation package
- Fault alarm system
- Production counting function
- Energy-saving mode
- Fully automated process
- Left-in/right-out operation
- Top-pressing anti-tilt device

05- Double side labeling machine

parameters

Model	DZ320C
Labeling Speed	20-80/min
Labeling Accuracy	±1mm
height of conveyor line from the ground	80
Labeling size	height≥10mm , 15≤width ≤140mm(Bigger size can be customized
Product size	Height≥10mm , 10≤Width ≤270mm(Bigger size can be customized
machine size	2200x900x1400mm
Weight	350KG
Material	304 stain steel
Power	1.5Kw
Supply Power	110/220/50HZ(CAN BE CUSTOMIZED)

Application
