

02-fully Automatic Sleeve Cuff Wrapping Machine

Offers precise, stable wrapping with safety features. Ideal for individual or grouped lightweight items. Enables seamless production line integration and easy operation in automatic or manual mode for efficient packaging

Feature

- Straight-Feed Design:
- Premium Cutting System:
- High-Precision Sensing:
- Dedicated Control Box:
- Product Stabilization:
- Automatic Blade Protection:
- Production Line Integration:
- Dual Operation Modes:

Option

02-fully Automatic Sleeve Cuff Wrapping Machine

Efficient, energy-saving, stable and reliable

Widely applied to enhance product aesthetic

Multiple styles for you to choose from

parameters

Name	CUFF wrapping+Heat shrink Tunnel
Model	6540+6040
Power Supply	220V+ AC 380V 3PH 50/60Hz
Power	1.7KW+24KW
Max. Packing Size	(W)≤450mm ; (H)≤360mm
Sealing Size	650
Table Height	800mm
Packing Speed/Covery speed	8~15pcs/min /1-15m
Air Source	6kgf/cm2
Shrink Film/Applicable film	PE 双片膜/PE,PVC,POF
Film Size	(W)≤650mm ; (D)≤360mm ; (G)≤35KG
Cuff wrapping+heat shrink tube	1750*940*1760/L2500 × W900 × H1560mm
Weight	420+450KG
Conveying Load	25kg
Heat shrink tube	Teflon stainless steel mesh chain/high temperature roller/Teflon mesh belt
