

Flat Containers Labeling Machine

Product Datasheet

Flat surface labeling machine delivers high-precision adhesion (99.5% accuracy) on boxes, trays, and flat packs, boosting efficiency 40% in logistics, electronics, and FMCG with rapid changeovers under 3 minutes.

Features

- Mitsubishi PLC Precision
- Tool-Free Quick Changeover
- Zero-Waste Operation
- Production Intelligence
- Seamless Integration
- Ultra-Hygienic Build

Options

- Double-sided synchronized labeling system
- On-line weighing calibration module
- AI visual quality inspection system
- RFID inlay integration station
- Automatic feeding function
